

**Respiratory Therapy**

# XT-Auto

Autoadjustable Positive Airway Pressure Device

The streamline flow-based XT-Auto represents the newest addition to Apex's innovative line of products for providing the effective and affordable therapy those patients and medical professionals look for in comfortable OSA treatment. The device monitors patient breathing, and responds to a variety of perceived patterns by adjusting the pressure up or down as deemed appropriate. It decreases the discomfort barrier to apnea therapy easier to come by. Our XT-Auto features a right price device with an advanced set of features that will give you more quality sleep you've been missing so you can wake up refreshed every morning to the adventure of living.

### Features:

#### Automated functions

Delivery a more comfortable, easier, and flexible therapy for patients on the go.

#### Flow sensing capabilities

Detection inspiratory flow limitations (apneas and hypopneas) and snoring profile for evaluation can react with optimal pressure at all times.

#### Automatic altitude compensation

Optimal for your travel convenience.

#### Automatic leak compensation

Enhance safety, comfort and tolerance of patients.

#### Ramp time

Helps patients fall to sleep easier.

#### Compliance meter shown on LCD

Trace usage record to make patient management easier.

#### Locking of parameters

Ensure user-safety without accidental interruption.

#### Build-in alarm clock

Benefit users to set an alarm clock to wake you up or services at a time.

#### Ultimate noise-free

Allow the most sound-sensitive patient or loved one to sleep comfortably without interruption.

Universal power supply  
Enable operation any corner of the world.

4 keys only  
Keep all operation easier.

Back lighted LCD Screen  
Make nighttime adjustment easy.

Direct data download via miniSD card or direct USB connectivity using.

Honeycomb structure (patented)  
Delivery constant flow and minimizes the pressure swing, which provides a more effective therapy.

### Optional Accessories

WIZARD-FIT Mask

Carry Bag

Heated Humidifier

Only one power-cord go to the wall with the integrated humidifier attached.

### Specifications:

Mode of Operation	XT-Auto
Pressure Range	4 - 20 cmH <sub>2</sub> O (adjustable by increment of 0.5 cmH <sub>2</sub> O)
Ramp Time	0 - 45 minutes (adjustable by increment of 5 minutes)
Ramp Starting Pressure	3cmH <sub>2</sub> O to therapy Pressure (adjustable by increment of 0.5 cmH <sub>2</sub> O)
Altitude Compensation	Automatic
Leakage Alarm	On/Off selectable
Other functions	Current time display & alarm clock function
Electrical Power	100 - 240VAC, 50/60 Hz
Size (W× D × H)	14.8 x 12.8 x 10.0 cm or 5.8" x 5" x 3.9
Weight	Approximately 800 g or 1.76 lb
